

## Learning Paths Overview

This guide will provide an overview of the Learning Paths feature in the Learning application.

Learning Paths allow you to use content-focused aspects such as Courses, Events, and Quizzes, by linking them into targeted syllabi using the Qualification Code feature.

We will cover the following topics:

- [How to set admin permissions in a learning path](#)
- [How to create a learning path](#)
- [How to set front-end permissions in a learning path](#)
- [How to add steps to a learning path](#)

## The admin side & learning paths permissions

Head to **Admin > Learning > Learning Path**.

A screenshot of the Learning Paths permissions configuration page in the Admin interface. The page is titled "Learning Paths" and shows the "Permissions" section. The "Learning Path" menu item is highlighted in the left sidebar. The main content area displays the "Permissions" section with a search box containing "Start typing to add...", a "Browse" button, and a "Remove" button. Below the search box, a dropdown menu is open, showing "Role: Administrators". A "View matching users..." link is visible below the dropdown, and a "Save" button is at the bottom of the page.

This section will give users full permission to access and manage Learning Paths by allowing them to add / edit / delete all Learning Paths.

For more information on the admin side of Learning, check out our guide [here](#).

## Creating a learning path

Head to **Application > Learning > Learning Path**:

Learning

**Training Records**

Historic view of your training records, certifications and to run reports

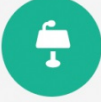

**Learning Paths**

Set of learning activities curated for you to achieve your goal

**Quizzes**

Take quizzes and test your knowledge on a given subject

**Courses**

Learn via online courses and modules

**Events**

Training Events, Workshop, Online Training, Webinar, Seminar

**Reminder:** If you do not see the option to create a new Learning Path, please check with your administrator that you have the permission needed to do so.

When creating the Learning Path there will be a series of fields to fill out:

Learning / Learning Paths / Add/Edit Path Details

**Learning Path Title\***

**Qualification Code\***

**Description/Abstract**   [SOURCE]

**Days To Complete**

A deadline will effect each user from the day they "Join" this Path.

**Status**  Under Construction  Live  Archived

**Path Image**

**Points (optional)** In order to complete this learning path the user must complete all mandatory material and obtain at least  points out of total {0}

[View effective permissions...](#)

- **Learning Path Title:** The name of the path you wish to create.
- **Qualification Code:** The most important factor that will link all learning content (specifically Learning Steps) to the appropriate Learning Path.
- **Description/Abstract:** A short description/overview of the Learning Path.
- **Days to complete:** A deadline set for users upon enrolling in the path. If users do not complete the path after the number of days specified, a

daily notification will be triggered after the deadline as a reminder.

- **Status:** The current status of the Learning Path. Users will only be able to access and interact with paths that are set to Live.
- **Path Image:** A thumbnail for the Learning Path.
- **Points (Optional):** A required pass mark for the Learning Path. This will not be applied immediately as you need to define points to Steps in your path before adding a required pass mark. This option will need to be re-visit if you choose to add a pass mark.
- **Permissions:** Define certain user groups/roles with varying levels of control within the Learning Path.

## The front-end & learning paths permissions

As noted above, different permissions can be granted to specific users.

The screenshot shows a 'Permissions' configuration window. At the top, there is a search input field with the placeholder text 'Start typing to add...'. To the right of the search field are two buttons: 'Browse' and 'Remove'. Below the search field, a dropdown menu is open, showing two options: 'Role: Administrators' (highlighted) and 'All registered'. Below the dropdown, there is a list of permissions with checkboxes: 'Can join' (checked), 'Edit' (checked), 'Delete' (unchecked), 'Manage Participants' (checked), and 'Receive Admin Notifications' (checked). Below the list is a link that says 'View effective permissions...'. At the bottom of the window are two buttons: 'Save' and 'Cancel'.

The permission options are as follows:

- **Can join:** User(s) can join the Learning Path.

The screenshot shows the front-end view of a Learning Path. The breadcrumb navigation at the top reads 'Learning / Learning Paths / View Path'. On the right side, there are navigation icons for home, search, trophy, bar chart, and close. Below the breadcrumb, there are three tabs: 'Path Details' (selected), 'Path Steps', and 'Participants'. The main content area is divided into two columns. The left column features a blue header with the 'claromentis intranet software' logo. Below the logo, the title 'Claromentis Beginner (CLABEG)' is displayed. A description follows: 'This course provides an overview of Claromentis, focussing on the commonly used applications and tools. On completion of the course, attendees will have a basic overall understanding of the platform and will be able to create and manage users and content within the Intranet.' At the bottom of this column, there is a 'Join this path' button (highlighted with a red arrow) and an 'Edit' button. Below these buttons, a progress indicator shows 'Join this path to reveal your progress' and 'Points: 0/40' with a progress bar at 0%. The right column displays a list of path steps. The first step is 'Claromentis Essentials (CLAESS)' with 20 Points, which includes a sub-step 'Claromentis Essentials'. The second step is 'Drop In Session (CLARODROP)' with 10 Points, which includes a sub-step 'Claromentis Drop-In Session (24-07-2017 15:00)'. The third step is 'Claromentis Tips and Tricks (CLAROTAT)' with 10 Points, which includes a sub-step 'Claromentis Tips & Tricks (21-07-2017 13:00)'.

- **Edit:** User(s) can edit Learning Path details and add Steps.

## Adding steps to a learning path

When looking at your new Learning Path, you will notice there is no content applied to the path. In order to add content, it is required to create a series of Path Steps.

To do so, head to [Learning Path > Path Steps](#):

Learning / Learning Paths / View Path

You will also see an option + Add Step. When you choose to add a step to the path you will again be given a series of options similar to the path itself.

Step Name\*

Description [SOURCE]

Requirement  Mandatory  Non Mandatory  Further Learning

Qualification Code \*

Points

- **Step Name:** The name of the step you wish to create.
- **Description:** An explanation/overview of the step.
- **Requirement:** Determine if the step is (a) Mandatory - must be completed even if the required pass mark is achieved without completing this step, (b) Non-Mandatory - optional step that is not required, or (c) part of Further Learning - optional step that is not required.
- **Qualification Code:** Connects learning content to the step. The qualification code given at this point must match the qualification code of a course, quiz, or training event.
- **Points:** Used to enable a pass mark for the Learning Path allowing for optional steps in your path.

**Please note:** A qualification code of a Learning Path should never match with one of the Steps. Each step should have a unique qualifications code within the Learning Path.
