

Add Custom Application Links

Overview

In addition to built-in Claromentis apps, you may wish to customise or add external web apps to the application menu.

Custom menu items to external apps can be added easily by following these steps.

1. Navigate to [Admin > Menu Builder > Applications](#)

2. Adding a custom app

Click on **Add new link** to add a custom app, below is an example for Google Drive

Update link ×

Title	<input type="text" value="Google Drive"/>
Link	<input type="text" value="https://drive.google.com"/>
CSS class	<input type="text" value="glyphicons-google-drive"/>

Open in new tab
 Visible

Title: **Google Drive**

Link: **<https://drive.google.com>**

CSS class: **glyphicons-google-drive**

You can find a suitable icons by using Glyphicons Finder which is located under [Admin > Labs > Design > Glyphicons Finder](#)

Check open in a new tab (Recommended for external apps)

Check visible.

Don't forget to **Save changes**.

FAQs

Can I upload my own image to use as an app menu?

Currently, It is not possible, Claramentis uses components called Glyphicons to provide iconography for the app menu because it is designed similar to the fonts which can scale up and down without the need to upload different image sizes depending on the needs.
