

Integrating News to Slack using RSS

Overview

If you are using Slack, you may want to create an automated post to a channel every time there is a new article published on the News application within Claromentis.

Follow this guide to set this up.

Requirements:

- Slack account with admin rights to install app
- Install RSS app from Slack App Directory
- Claromentis News Admin right

How to

Step1: Preparing RSS Feed from News App

1. On your Claromentis system, navigate to [Admin > News > Export news channel as RSS](#)
2. Click **+Add RSS Feed** to create a new feed.
3. Provide a Title, and select which channels you wish to be included in the feed.

Admin > News > RSS feeds > Create news feed

Create news feed

Title

News channels

- Inside Claro
- Marketing
- Mike Testing Universe
- Sales
- Slider
- Tech
- General News

4. Once it is created you need to copy the unique RSS link which later needs to be added to the RSS app in Slack. Please keep this URL private to avoid having internal news exposed to the public.

Admin > News > RSS feeds RSS

RSS feeds + Add RSS Feed

| Title | Date Created | Link | News channels | |
|-------------------------|----------------|--|--------------------------------------|--|
| Intranet News for Slack | 5 January 2023 | https://codedev.claromentis.com/news/rss/ff6c ff6d | Marketing, Sales, Tech, General News | 🔗 📄 🗑️ |

Step 2: Add RSS Integration in Slack

1. Visit RSS Page in Slack App Directory
2. Under **Add a Feed**, paste the unique RSS Link
3. Select which Slack channel you wish to post

Add a Feed

Feed URL

Post to Channel

[Subscribe to this feed](#)

4. Submit by clicking **Subscribe to this feed**.
5. Done! Publish an article and see it appears on your designated Slack channel. Both title and news abstract are visible in Slack with a direct link to read the full article.

Useful Info

- Slack RSS feed will only publish new items added to the selected news channels after the integration is made. (Old news articles won't be published)
- On average there is a 10-30 minutes delay from the time news is published until it appears on your Slack channel.
