

## Pages: Admin overview

This guide is for [application administrators](#) of the Pages application.

We will cover each tab available on the admin side of [the Pages application](#). (Admin > Pages)

### Sites

Once [Sites have been created](#), they will be listed here.

They will be in alphabetical order; use the page numbers on the top right to navigate through.

Admin

Sites

Permissions

Components

Admin > Pages

10 entries per page

<

1

>

Site title	Site URL	Permissions
About Us	/pages/about_us	Edit
Charities	/pages/charities	Edit
Claromentis Training	/pages/claromentis_training	Edit
Company	/pages/company	Edit
Compliance	/pages/compliance	Edit
E-form and Workflow	/pages/e_form_and_workflow	Edit
Franchise Homepage	/pages/franchise_homepage	Edit
Homepage Muted	/pages/homepage_lite	Edit
HR	/pages/hr	Edit

Click the site URL to open its homepage.

Otherwise, the 'edit' button allows the ['Manage' site permission](#) to be edited for the corresponding Site

Admin

Sites

Permissions

Components

Admin > Pages > Site permissions

Site: About Us

Specify who can manage this site

Start typing to add...

Browse

Remove

Role: Administrators

View matching users...

Apply permissions

Close

This is a way for administrators to quickly update this permission without needing front-end permissions to access the same area.

## Permissions

Set who can create Sites (and therefore pages) as well as deal with any content added to the trashcan.

Administrators need to [set up this area](#) before Sites & Pages can be created.

Admin

Sites

Permissions

Components

Admin > Pages

Permissions

Specify who has rights to create sites

Start typing to add...

Browse

Remove

Role: Administrators

☒ Create sites

☒ Manage all recently deleted sites and pages

View effective permissions...

Apply permissions

## Components

It is possible to create [custom page components](#) if you have the proper technical knowledge to do so.

We have some free examples that we manage - [Snowfall](#), [Quotes](#)

Admin

Components

Admin > Pages

Custom Pages Components

Import Component

Add New Component

Icon	Name	Description	
	Your demo expires in... (tile-your-demo-expires-in)	Counts down until to a time specified in the countdown_timer.txt file on the server	<div></div>

Once created or imported, the components are listed in this tab for administrators to manage.

Custom components (outside our free examples) are created & managed client-side.

If you would like assistance building a custom component, please submit [a change request](#).
