

Set Up An Approval Process In News

In the News application, administrators can set up an approval process per News channel.

The feature allows you to assign select users as News Approvers for each news channel. Other users can submit draft articles for review and be published only following approval.

- [Assigning news approvers](#)
- [Configuring news approval process](#)
- [Submitting news for approval](#)
- [Approving news & notifications](#)

Assigning news approvers

We recommend using a designated Role or Group for your News Approvers.

This is recommended for better permission management and to save time from assigning permissions to users individually.

For more information, please check out our guide for [Roles & Groups](#).

For this scenario, a 'Content Approver' role has been created. This role will be used to begin configuring the News approval process.

News permissions breakdown

You will be presented with the following permissions options.

Admin / News / Channels & Templates / Edit permissions

General

Start typing to add... Browse Remove

☐ View

☐ Add and Edit

☐ Publish

☐ Approve others

[View effective permissions...](#)

Apply permissions Close

- **View:** Users can view articles in the channel.
- **Add and Edit:** Users can add and/or edit existing articles in the channel.
- **Publish:** Users can publish articles and make them live straight away.
- **Approve others:** Users can edit and interact with other users' submitted articles, approving them to make them live.

From the News channel properties, you can begin to set up an approval process for your intranet news.

Below is an approval process set up in the General channel.

News creators with approval required

'All registered' users have been given rights to **View & Add & Edit** articles within this News channel.

Role: Managers

☒ View

☒ Add and Edit

☐ Publish

☐ Approve others

[View effective permissions...](#)

Apply permissions

Close

The above indicates all users can (a) View all published articles within the news channel, and (b) Submit draft articles for approval within the channel.

Users, however, cannot (a) Publish any news article within this channel, and (b) Approve any draft articles within the channel.

News creators with no approval required

Managers have been given the same rights as All registered users, but also given rights to **Publish**.

Close

The above indicates Managers can (a) View all published article within the news channel, (b) Create draft articles within the channel, and (c) Publish their own articles within the channel.

Users, however, cannot (a) Publish another user's news article within the channel, and (b) Approve any draft articles within the channel.

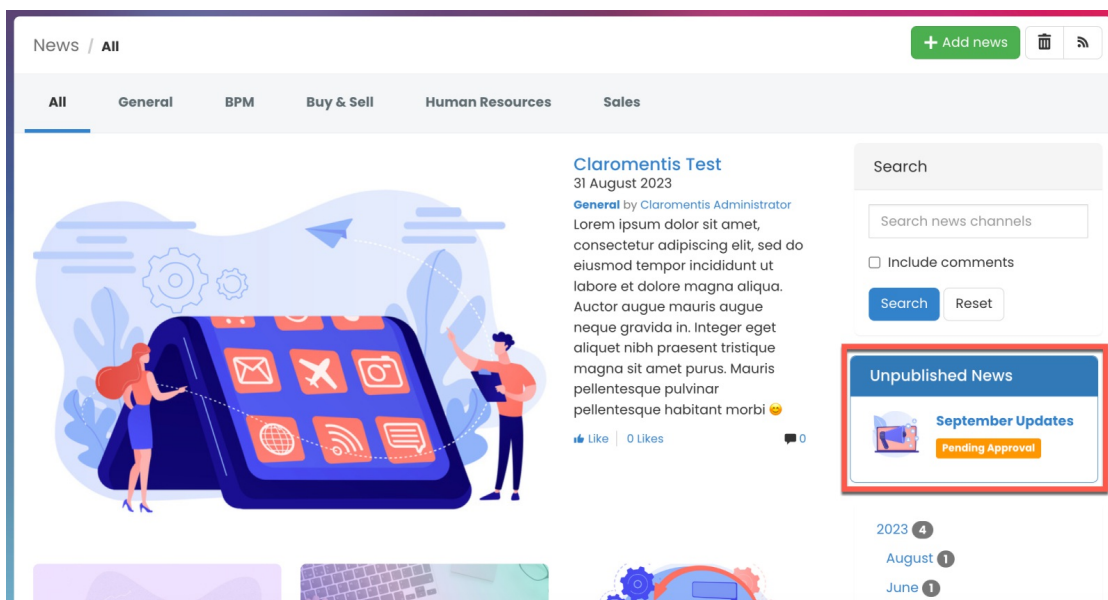

News approvers

Content Approvers have been given the additional rights to **Approve Others** & **Publish** articles within this News channel.

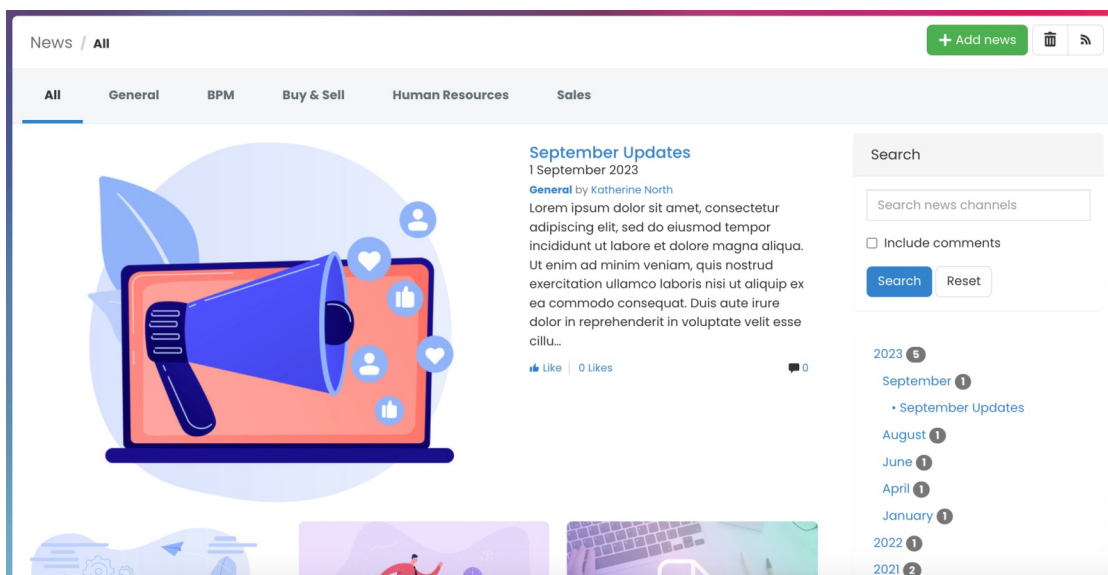

A News Creator can access their own draft articles from the front-end of the News application.

Draft articles can be edited whilst in **Pending Approval** status, if needed. News articles can then be submitted back for approval.

Once approved, the news article will be published.

Approving news & notifications

News Approvers will be notified when a draft article is submitted for approval.
