

Event notifications

We will provide an overview of all available Event notifications.

Notifications are attached to Event permissions, so users will only receive notifications if they can join or withdraw from an Event or its waiting list.

Templates for each language can be viewed and edited from **Admin > System > Localisation > Edit templates > Events**.

A screenshot of the 'Edit English Notifications for Events' interface. The breadcrumb trail at the top reads 'Admin / System / Localisation / Edit notifications / Events (English)'. On the left is a sidebar menu with categories: General, Administrators, License, Date and Time, Background Services, and Localisation (which is highlighted). The main content area is titled 'Edit English Notifications for "Events"' and contains the instruction 'Select a template to localise'. Below this, there are two columns of notification templates: 'events.admin.user_joined', 'events.admin.user_requested', 'events.organiser.status_updated', 'events.organiser.user_withdrew', 'events.user.approved', 'events.user.attending', 'events.user.cancelled', 'events.user.capacity.increased', 'events.user.declined', 'events.user.invited', 'events.user.manager_added', 'events.user.manager_removed', 'events.user.now_waiting', 'events.user.updated', and 'events.user.withdrawn'.

Notification not sending?

Remember: The type of notification received by users e.g. email, in-system, none etc will depend on their preferences as outlined here.

If a notification is not evident, check the recipient's preferences are correct to receive this how they would expect first.

What notifications can Events send and who will receive these?

1. Basic user Event notifications

`events.userinvited`

`events.user.cancelled`

`events.user.updated`

These 3 notifications are configured by the user who created the Event and can be enabled using the option below which appears when creating one:

Permissions

All registered
Role: Administrators
Group: Marketing

View only
 Can join
 Can Manage Booking And Attendees
 Edit this event
 Delete
[View effective permissions...](#)

Status

Display this Event at the top of the Upcoming Events list
 Send an email invitation/cancellation/updates to users who can sign-up

These notifications will only be sent to users with 'Can join' permissions and will fire in these scenarios.

- **Invited:** The Event has been made live
- **Cancelled:** The Event is cancelled by the creator of the Event or an Administrator
- **Updated:** The Event is edited and saved (usually as an update is required e.g. the the date/time, title etc)

2. If approval is required to join the Event

Training Event This event will be marked as Training Event and recorded in user's training record

Approval Approval required to attend
 Attendee's line manager/supervisor can also approve

Attachments [or select from pre-uploaded...](#)

Participants Limited Unlimited
 Private (Participants will not be displayed)

Permissions

All registered

View only
 Can join

events.admin.user_requested

This fires when a user with permission requests to join an Event as this requires approval.

The recipient(s) will be users that have been given the 'Manage booking and attendees' permission.

They can either approve or decline the request, which means the user can be added or left out of the Event.

It's possible to widen the number of users that can make approvals to the user's line manager as designated in Admin > People, it can be enabled per Event using the option below:

Approval

- Approval required to attend
- Attendee's line manager/supervisor can also approve

events.user.approved

events.user.declined

The user that requested to join an Event that requires approval will receive either of the above notifications based on the choice made by the user with 'Manage booking and attendees' permission (which could include their line manager if that option has been enabled) about their request to join.

Events / Event details / Attendee Registration + Create event

test1234
1 user in the waiting list, including 0 friends/family

Select user Browse + Add Attendee Export to CSV

User	Job title	Email	Approve / Decline	Attended Event	Notes	Date / Time	
Jennifer Langdon	Marketing Manager	hannah.door@claromentis.com		<input type="checkbox"/>		18-10-2023 11:05	

Please note: If a user has declined approval, they will not be able to request approval again, 'Declined' will appear where the join button usually appears preventing them from doing so.

Events / Event details

test1234

🕒 Wednesday, 18 October, 12:00 - 12:30

This event is organised by [Claromentis Administrator](#)

sdfsdf

Declined.

Edit/Cancel your booking

Who's Going

If in the future it is decided the declined user does need to join the Event, then a user with 'manage booking and attendees' permission, administrator or their manager (if enabled) can change their status in the 'attendee registration' area, or use the bin icon to remove them completely (allowing them to request approval to join again)

Free spaces will need to be available in the Event to approve them.

3. If the Event has a limited number of spaces

Participants Limited Unlimited

Total capacity people

Allow each user to bring up to friends or family

events.admin.user_joined

This notification will fire when a user has clicked to attend an Event when there are spaces available.

It will be sent to users with the 'Manage booking and attendees' permission.

events.user.attending

This notification will fire when a user has clicked to attend an Event when there are spaces available.

It will be sent to the user who clicked to attend outlining they have joined the Event.

The screenshot shows the 'Event details' page for an event titled 'test123' on Wednesday, 18 October, 11:00 - 11:30. The event is organized by 'Claramentis Administrator'. The page displays several statistics: 1 User joined, 1 Available, 65 Invited, 0 Waiting list, 9 Viewed, and 2 Max capacity. A blue button labeled 'Yes I'm going' is highlighted with a red box. Below the statistics, there is a 'Who's Going' section showing 'Phil Lawrence' as a developer. At the bottom, there are buttons for 'Make a copy', 'Audit', and 'Edit'.

events.organiser.user_withdrew

This notification will fire when a user who joined the Event has withdrawn from it.

It will be sent to the user with the 'Manage booking and attendees' permission.

The screenshot shows the 'Event details' page for 'test123' with an 'Edit your booking' modal open. The modal contains a text area for 'Note to organisers, including special needs and dietary requirements (optional)'. At the bottom of the modal, a red box highlights a button labeled 'Withdraw from this event'. In the background, the event details page is visible, showing statistics: 2 Users joined, 0 Available, 65 Invited, 0 Waiting list, 10 Viewed, and 2 Max capacity. A red box highlights the 'Edit/Cancel your booking' button in the 'Who's Going' section.

4. If the Event implements a waiting list

(This can only be configured when Event spaces are limited).

Participants Limited Unlimited

Total capacity people

Allow each user to bring up to friends or family

Allow waiting list up to people

Private (Participants will not be displayed)

`events.user.now_waiting`

This notification will fire when a user previously attending the Event has withdrawn and a waiting list has been implemented.

It will be sent to all users on the waiting list and will outline their new position in the queue due to the withdrawal.

Please note: Every time a user withdraws from an Event those on the waiting list for it will receive this notification outlining their new position in the queue.

`events.user.withdrawn`

This notification will fire when a user previously attending the Event has withdrawn and a waiting list has been implemented.

It will be sent to the user in the first position on the waiting list advising they are no longer on the waiting list and have now been added to the Event as attending.

`events.user.capacity.increased`

This notification will fire when the total capacity of the Event has been raised by the Event creator or user with permission to edit e.g. Administrator.

It will be sent to users who were on the waiting list but can now join the Event due to increased capacity.

Please note: In this situation those who are still on the waiting list after the increase will receive the `events.user.now_waiting` notification outlining their new position.

Decrease Event capacity?

It is possible to decrease the Event capacity once users have already joined, however, this will not generate any notifications to users about changes, as the system will not revert users' positions, it will instead display this message:

Events / Event details + Create event

test1234

📅 Wednesday, 18 October, 12:00 - 12:30

This event is invite only. If you wish to attend please request to join.

This event is organised by [Claramentis Administrator](#)

👤 0 Available • 👥 You can bring up to 0 friends/family

[Request to Join](#)

Sorry, this event is full, but we'll notify you if a space frees up. Current number of waiting list: 1 person.

[Attendee Registration](#)

Who's Going

-  [Jennifer Langdon](#)

0
Available

65
Invited

1
Waiting list

13
Viewed

1
Max capacity

[Make a copy](#) [Audit](#) [Edit](#)

e.g. this Event capacity was reduced from 3 users to 1, but the system did not move 2 users to the waitlist automatically when the capacity was reduced.

Instead administrators/those with 'manage bookings and attendees' permission can manually rectify the situation by choosing which attendees should be reverted to their ability to join by using the '- - -' option.

Events / Event details / Attendee Registration + Create event

test1234

1 user is joining this event, including 0 friends/family

Select user [Browse](#) [+ Add Attendee](#) [Export to CSV](#)

User	Job title	Email	Approve / Decline	Attended Event	Notes	Date / Time
Phil Lawrence	Developer	phil@claramentis.net	---	<input type="checkbox"/>		18-10-2023 11:51 added by Claramentis Administrator

Once the number of users reverted meets the new reduced capacity for the Event the system will automatically add them to the waitlist as expected.

5. Other notifications

events.organiser.status_updated

This notification will fire when the status of an Event is changed (by a user who has 'edit this Event' permissions or an administrator) and the recipient

will be the user set as the 'Organiser'.

Events / test123 / Edit Single Event + Create event

Edit Single Event

Title *

Category *

Tags
popular tags: claromentis, intranet, microsoft, excel, team, social, powerpoint, word, holiday planner, culture

Organiser *

Image

Date & Time * -

Full day

Please note: If you are making the changes and are also the organiser of the Event being changed, the notification will not be sent as you are aware you have done this and don't need to be notified

events.user.manager_added

This will fire if a user is added to an Event via the attendee registration area, which will only appear to those with the 'Manage booking and attendees' permission.

The recipient of the notification is the user that was added.

If approval was required, the user is automatically approved when added in this way, which results only in the 'Manager added' notification to the user (they will not also be notified that they were approved)

Events / Event details / Attendee Registration + Create event

test123

1 user is joining this event, including 0 friends/family

Select user

User	Job title	Email	Decline	Event	Notes	Date / Time
Jennifer Langdon	Marketing Manager	hannah.door@claromentis.com	Approved	<input type="checkbox"/>		17-10-2023 12:01

Remember: A user has to have been defined in overall permissions for the Event to view/join etc before they can be picked in the registration area. If a user isn't appearing check they first have been included in the permissions for the Event.

events.user.manager_removed

This will fire if a user is removed from the Event via the attendee registration area, which will only appear to those with the 'Manage booking and attendees' permission (or Administrators)

The recipient of the notification is the user that was removed.

The screenshot shows the Claromentis Events interface. At the top, there is a navigation bar with the Claromentis logo and a search bar. A confirmation dialog box is open, asking "Are you sure you want to remove this booking?" with "Cancel" and "OK" buttons. The "OK" button is highlighted with a red box. Below the dialog, the page title is "test123" and it indicates "3 users are joining this event, including 0 friends/family". There are buttons for "Select user", "Browse", "Add Attendee", and "Export to CSV". A table lists the attendees:

User	Job title	Email	Attended Event	Notes	Date / Time	
Jennifer Langdon	Marketing Manager	hannah.door@claromentis.com	<input type="checkbox"/>		17-10-2023 12:01	
Alan Metcalfe	Sales Assistant	hannah.door@claromentis.com	<input type="checkbox"/>		17-10-2023 12:11 added by Claromentis Administrator	
Pippa Fraser	Human Resources Manager	hannah.door@claromentis.com	<input type="checkbox"/>		17-10-2023 12:15 added by Claromentis Administrator	

If the same user that was removed tries to join the Event following this, the standard approval procedure will be followed if this has been implemented. e.g. they can request to join and be approved or declined.
