

We will provide an overview of all available News notifications.

Notifications are attached to News permissions, so users will only receive notifications if they can interact with articles and the channels they are in.

Templates for each language can be viewed and [edited](#) from **Admin > System > Localisation > Edit templates > System**.

Notification not sending?

Remember: The type of notification received by users e.g. email, in-system, none etc will depend on their preferences as outlined [here](#).

If a notification is not evident, check the recipient's preferences are correct to receive this how they would expect first.

What notifications can News send and who will receive these?

- Basic notifications

news.news_control.news

This notification will be sent when a New article:

- is published and the 'Send notification to all users with view rights' option was selected

News

Lorem Ipsum

This news article has been deleted.

This notification will fire when a user with 'approve others' permission deletes an article submitted for approval.

The recipient will be the owner of the article who sent it for approval.

- Defunct

news.your_comment_status

This is a legacy template that no longer fires as its functionality has been removed from the product.

In future versions, this will be removed from the list.
