# Who's Out Component

The 'Who's Out' component is a handy tool that simply displays a list of who is out from the company/team that day and the following day. It pulls its data from the Holiday Planner tool, so you must be using this to track absence in order for this component to display data.

Users will only be able to see holiday data in the component for users in the same team, this is explained above in the 'My team' definition.

To begin using the component, simply edit the page you would like it to display on (by clicking the pencil icon bottom left). You have the following configuration options:

When complete, the tool should look something like this:

Who's out

Dave Arril
`Sickness day`

Nigel Davies
`Holiday`

Sameer Arora
`Holiday` `Half day (PM)`

Barclay Martin
`Non work day`

Robert Reith
`Non work day`

Next working day

Barclay Martin
`Non work day`
