

Calendar Notifications

We will provide an overview of all available Calendar notifications.

Templates for each language can be viewed and [edited](#) from **Admin > System > Localisation > Edit templates > System**.

Notification not sending?

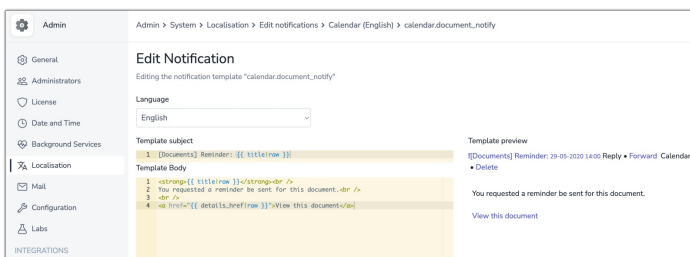

Remember: The type of notification received by users e.g. email, in-system, none etc will depend on their preferences as outlined [here](#).

If a notification is not evident, check the recipient's preferences are correct to receive this how they would expect first.

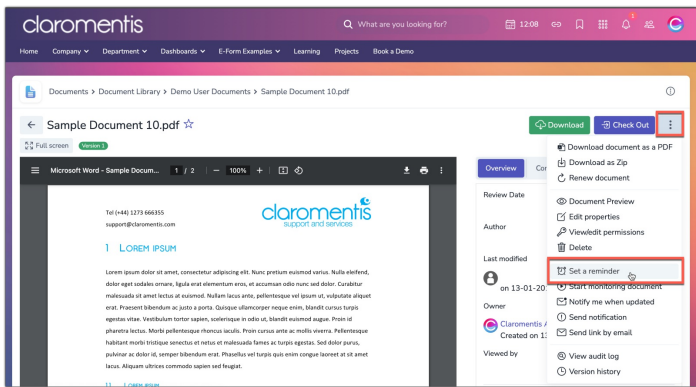

What notifications can Calendar send and who will receive these?

calendar.document_notify

This notification will be sent to a user when they set a 'Send reminder' notification on a specific date, for a document.

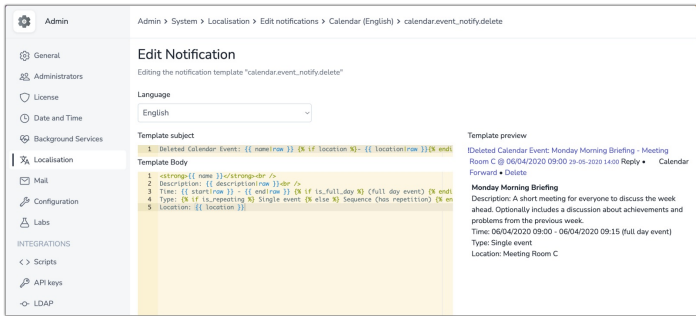

The 'Send reminder' feature can be located in the Documents application.

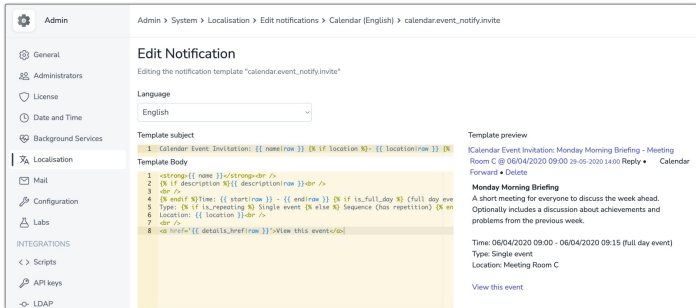

calendar.event_notify.delete

This notification will fire when a calendar event a user created or was invited to has been deleted.

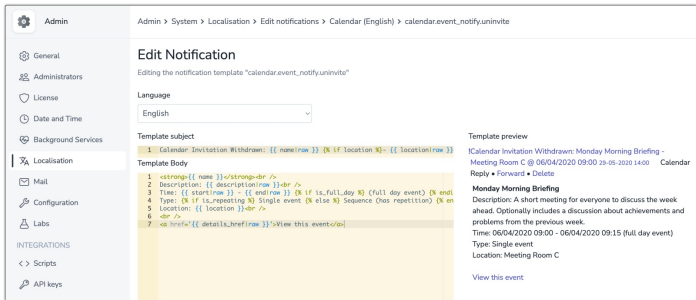

calendar.event_notify.invite

This notification will be sent to a user who has been invited to a calendar event by its creator.

calendar.event_notify.uninvite

This notification will be sent when a user is removed from the invitation list of a calendar event by its creator when they were previously invited.

calendar.event_notify.update

This notification will be sent to any users invited to a calendar event when the creator edits and saves it.
